Supreme life raft launch systems

With our Alexios life raft launch systems, FlowGrill adds a new dimension to our definition of innovation. FlowGrill enables the world's leading yacht builders to achieve their ambitions. Relying on aesthetically functional designs, superb reliability and outstanding quality, we cooperate closely with architects and builders from the initial design onwards, offering standard products as well tailor made solutions.

Enjoy the benefits of technical and visual excellence.

Safe, simple, superb

- Lloyds approved.
- Designed according to SOLAS Standards.
- Launched fully automatically by quick release system.
- Periodic testing by using manually operated winch.
- Mountable on flat or angular surfaces.
- Suitable for Viking DK 25 life raft.
- Can also be made to use alternative life rafts.*

Options

- High polish.
- All preferred yacht paints possible.
- Available with hatch.
- Tailor made frame connecting launcher to the deck of the ship.

◀ Fully enclosed launcher

If desired, Alexios life raft launch systems can be incorporated into the design of a ship, fully enclosed by hatches and activated by hydrostatic and remote releases.*

* Full Lloyds approval based on standard system using Viking DK 25 life raft.
